

ACTIVITY MASTER #TE1

Intergenerational Sharing

Take this opportunity to learn some things from your grandparents, a favorite aunt or uncle, or an older person who plays an important role in your life.

Tell the important elder in your life that you have some questions from class that you would like to discuss with him or her.

Ask your chosen person if he or she would like to have the discussion over lunch or dinner. Choose a favorite place or, if the weather is nice, a picnic would work as well.

Give your relative or friend a copy of the questions you want to discuss before your outing.
